Tour Highlights

Join us for our Lake Eyre & Opals Tour as we travel through three states on an Opal-hunting adventure. We fly to three different locations to discover Australia's precious Black, unique Pineapple and well-known White Opals. You'll venture deep underground to the places where opals are mined and even stay in an underground Hotel. Our flight also takes us to Broken Hill before flying over the spectacular Lake Eyre region, with a visit to the iconic Birdsville Hotel being a great way to round off this tour.
